For at opfylde vejledende læseplan for prøveafholdelse i 10. klasse er det fælles for de 4 hovedområder på begge linjer, at der hele året arbejdes med kultur- og samfundsforhold in the English-speaking World i forhold til historiske og politiske forhold.

Hvor International særligt har fokus på det internationale samfund, er temaerne i Science vinklet så der arbejdes ud fra en interesse for videnskab.
